NIDI, DESIGN, QUALITY AND BEAUTY FOR KID'S ROOMS

Posted by Paula | Oct 4, 2018 | Childrens furniture, Kids Furniture, Kids rooms | 0 | ★★★★★

It's not the first time we mention this Italian brand which fills our kids' bedrooms with the most functional and amazing furniture you can imagine. Created in 2013 from Battistella group, this lovely brand will be the perfect partner during your little ones' growth.

This time we have seen them at the **Feria Hábitat in Valencia** where they presented their cute novelties for kids and teenagers' spaces. From 18TH to 21st September, Nidi offered the visitors a huge choice of functional bedrooms, great storage solutions and lots of **colourful modern designs** to build the perfect space for the youngest (usually the most demanding clients). At the Feria, we could see four different spaces inspired by the needs and desires of kids.

Nidi will also take its leave from Feria Hábitat Valencia to reveal two special arrangements at Loft, the design showroom in the central San Vicente Ferrer square in Valencia.

Take a look at those lines, those colours, those combinations which are carefully created according to the **latest trends and aesthetics**. Every single detail is considered to offer the most beautiful creations as well as the best quality.

Take a look at those lines, those colours, those combinations which are carefully created according to the **latest trends and aesthetics**. Every single detail is considered to offer the most beautiful creations as well as the best quality.

The playful and functional spaces offer a **cosy atmosphere** where both kids and adults feel comfortable enough to spend hours enjoying it.

We all know kids rooms are often full of toys, clothes, books and any other thing our little ones consider attractive enough to take it into "their little kingdom", this is why storage is always a must. Shelves, wardrobes, chests of drawers...don't miss all the solutions Nidi has created for you!

Are you ready to enjoy the cutest Italian design?
